

Sodium Hydroxide solution generated electrochemically from Sodium Chloride.

Aquaox Cleaner is produced at approximately 12 pH where the predominant antimicrobial agent is Sodium Hydroxide, an efficient and efficacious cleaning agent that cuts grease. Sodium Hydroxide kills the household germs *Salmonella enterica* and *Escherichia coli* in 10 minutes.

Contains no Phosphate, Chlorine, Bleach or Ammonia.

Storage: Store at room temperature away from direct sunlight and heat. **DO NOT ALLOW TO FREEZE** because product may lose its potency. After use, seal or close dispenser.

Stability: Aquaox Cleaner 122 must be used within 1 year of production.

Disposal: Discard any remaining products in accordance with local, state and federal regulations.

*Kills gram-negative bacteria only.
**A rinse is required for surfaces in direct contact with food.

Production date:

Aquaox Cleaner is effective against Gram-negative bacteria. It cleans and kills household germs on the following surfaces: kitchen (a rinse is required for surface in direct contact with food); finished floors, walls, appliances, sinks, countertops, garbage disposals; bathrooms: toilets, tubs, fiberglass, diaper pails, doorknobs; tough jobs: garbage cans, pet areas, vinyl siding and more!

To Clean and Deodorize Surfaces: Apply full-strength product with microfiber cloth, sponge or sprayer. Wipe and rinse with water.

To Clean and Deodorize Tough Jobs: Pour directly on tough soil or on sponge. Wipe and rinse.

To Clean and Deodorize Toilets: Pour in bowl and brush.

To Clean Floors, Cars, Finished Wood, Dilute Cleaning: Mix 1/4 cup per gallon (1/2 bucket) of water [-60ppm concentration]. Usually no need to rinse.

Spray Solution for Cleaning and Deodorizing: Dilute 1 part Aquaox Cleaner with 1 part water. Mix 3/4 cup per gallon (1/2) bucket of water [175 ppm concentration].

To Disinfect Hard, Non-Porous Surfaces: Apply full-strength product on the surface and let stand for 10 minutes before wiping. For highly soiled areas, clean before following disinfecting directions. Aquaox Cleaner kills *Salmonella enterica* and *Escherichia coli* in 10 minutes. Effective against Gram-negative bacteria only. Use Aquaox Disinfectant 250 or Aquaox Disinfectant 460 after cleaning surface to eradicate all bacteria on Hard, Non-Porous surface. Treated surfaces must remain wet for 10 minutes. Allow surfaces to air dry. Food contact surfaces such as counters and tables must be rinsed with potable water. Do not use on utensils, glasses, cookware or dishes.
