Sodium Hydroxide solution generated electrochemically from Sodium Chloride.

Aquaox™ Cleaner 122 is a non-hazardous chlorine-free liquid formulation that does not produce fumes. Aquaox™ Cleaner 122 does not contain hazardous "butyl" solvents or other potentially dangerous substances such as phosphates or ammonia and no adverse effects on accidental skin contact have been reported.

Aquaox™ Cleaner 122 is a 3200 ppm,
Sodium Hydroxide solution that is produced
at a minimum of 11 pH and contains the
active ingredient Sodium Hydroxide which
is known to be an effective cleaning and
degreasing agent. Aquaox™ Cleaner 122 is
an easy-to-use cleaning agent and can be
used in medical, institutional, industrial and
commercial applications.

*Sodium Hydroxide kills gram-negative bacteria.

**A rinse is required for surfaces in direct contact
with food.

Aquaox[™], LLC 17355 Hamlin Blvd, Loxahatchee, FL 33470 USA +1 (800) 790-7520

Part Number: AX-122-V1.1

Lot #: __

Production Date:

Aquaox[™] Cleaner 122 is a non-toxic, chemical free, all-purpose cleaner that can be sprayed, wiped, dipped or misted. It is ready-to-use and cleans without scrubbing the following surfaces: tiles, finished floors, walls, appliances, sinks, countertops, garbage disposals, bathrooms, toilets, tubs, fiberglass, diaper pails, doorknobs, garbage cans, pet areas, vinyl siding and more!

DIRECTIONS FOR USE:

TO CLEAN AND DEODORIZE SURFACES

Add 3/4 cup of product to one gallon of water. Apply product on microfiber cloth and wipe surface clean. For highly soiled areas, allow solution to contact surface 1-5 minutes before wiping clean. Food contact surfaces such as counters and tables must be rinsed with potable water. Do not use on utensils, drinking glasses, cookware or dishes.

TO CLEAN AND DEODORIZE TOUGH JOBS

Apply full-strength product directly on surface. Rinse and wipe clean. To remove dirt and emulsify oils, tough burnt-on grease, and grime deposits on hard surfaces such as kitchen appliances, stainless steel equipment, marina and automotive tools and machinery, allow solution to contact surface 1-5 minutes to penetrate debris. If necessary, immerse, scrape, wipe, and rinse surface with hot water before wiping clean.

TO CLEAN AND DEODORIZE TOILETS

Flush toilet. Pour product into bowl. Brush bowl with scrub brush and flush.

TO DISINFECT HARD, NON-POROUS SURFACES

Spray Aquaox™ Disinfectant 275 or Aquaox™ Disinfectant 525 on pre-cleaned surfaces and allow to air dry to eradicate all micro-organisms (bacteria, fungi, viruses and spores).

TO CLEAN FLOORS, CARS, FINISHED WOOD, DILUTE CLEANING

Add 1/4 cup of product to one gallon of water. Apply product on microfiber cloth and wipe clean. For a spray solution, add 3/4 cup of product to one gallon of water.

STORAGE AND DISPOSAL

Store at room temperature away from direct sunlight and heat. **DO NOT ALLOW TO FREEZE** because product may lose its potency. After use, seal or close dispenser before disposal. No special disposal requirements. Aquaox[™] Cleaner 122 is eco-friendly.

PRECAUTIONARY STATEMENTS

Physical or chemical Hazards: Aquaox™ Cleaner 122 is not compatible with other chemicals such as acids and hydrogen peroxide.

CAUTION

May cause mild eye irritation. Avoid contact with eyes. Personal Protective Equipment not necessary, but good manufacturing practice recommends the use of safety glasses and gloves when handling this product. Wash hands with soap and water before eating and drinking.

FIRST AID

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center, doctor or going for treatment. You may also contact the National Pesticide Information Center (NPIC) 1-800-858-7378 for emergency medical treatment information.

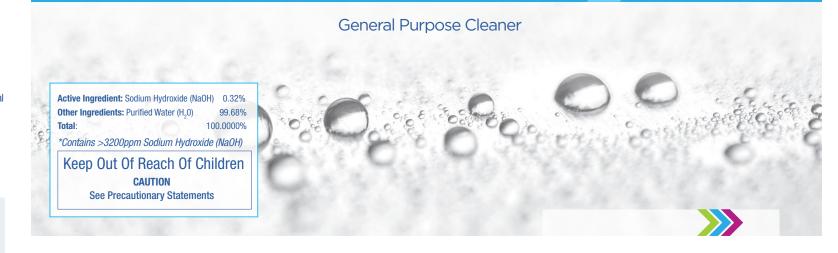

If in eyes: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
