STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store this product in its original sealed container at room temperature or cool place away from sunlight and heat.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.

Disposal: Pesticide wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by according to label instructions, contact your State Pesticide or Environment Control Agency, or the Hazardous Waste Representative at the EPA Regional Office for guidance

PRECAUTIONARY STATEMENTS

Physical or Chemical Hazards: Do not mix product with other chemicals such as other household or industrial chemicals such as toilet bowl cleaners, rust removers, acids, strong bases, or products containing ammonia.

Target Pathogens for Disinfection	Strain	Contact Time
Staphylococcus aureus	ATCC 6538	1 Minute
Pseudomonas aeruginosa	ATCC 15442	1 Minute
† Rhinovirus 16	ATCC VR-283	1 Minute

Broad spectrum Hospital Disinfectant. Use in public or common places where bacteria may be of concern on hard, non-porous surfaces. One-step cleaner and disinfectant (when disinfecting directions are followed) for general cleaning and disinfecting hard, non-porous environmental surfaces in healthcare, veterinary, agricultural, commercial as well residential facilities.

DIRECTIONS FOR USE:

It is a violation of the federal law to use this product in a manner inconsistent with its labeling.

To Clean, Disinfect, and Deodorize Hard, Non-Porous Surfaces and or Floors: Visibly soiled areas must be pre-cleaned prior to application. Spray onto surfaces and allow to remain visibly wet for 1 minute. Then air dry or wipe dry. Rinse or wipe dry on metal surfaces.

To Clean and Deodorize Toilet Bowls and/or Urinals and/or Bidets above the water line: Remove visible soil prior to disinfection. Empty toilet bowl or urinal and liberally spray to exposed surfaces including under the rim until the surface is thoroughly wet. Brush or swab all surfaces thoroughly. Treated surfaces must remain visibly wet for at least 1 minute before flushing again. Allow to air dry.

To Clean and Disinfect Hard, Non-Porous Surfaces in Veterinary / Animal Facilities and Kennels: Remove all litter, droppings, and manure from walls, floors, and surfaces or facilities occupied or traversed by animals. Empty all feeding and watering equipment. Remove visible debris from surfaces before applying this product. Spray onto the surface thoroughly. Allow surfaces to remain visible wet for 1 minute. Rinse or wipe dry on metal surfaces.

For daily use. Cleans, Deodorizes and Disinfects. Leaves no sticky residue. Alcohol free, Bleach Free, Phenol free and VOC free. Derived from naturally occurring salt minerals and water. Made in USA
